Gen. Eisenhower To Probe Allies' Will To Fight

To Tour Atlantic **Pact Nations To** Learn Attitude

By DARRELL GARWOOD (I. N. S. Staff Correspondent)

WASHINGTON, Jan. 4.-President Truman was reported seeking Gen. Eisenhower's personal assurance today that America's Allies can give adequate support to the defense of Western Europe.

After a quick swing around European capitals starting next week, Eisenhower is expected to return to the U.S. late this month to report to the White House on European capabilities and will to fight.

Eisenhower, now winding up a series of intensive military discussions in Washington, will take off from New York Saturday and fly directly to Paris to assume his new post as commander-in-chief of Western Europe's anti-Communist

army. The supreme commander will see President Truman either to-

day or tomorrow.

Two meetings of the Friday the 13th club are scheduled for this year, it is found by Pa Newc in scanning the 1951 calendar. The group will assemble on Friday, April 13 and then the final meet-ing of the year will convene on Friday, July 13. With use of critical materials

being curbed by the government for military use, local residents are reminded of various household items purchased during World War II which were void of all the frills and decorations that appear on post-war goods. Some substi-tutes created during the war days have been universally adopted and found even more satisfactory than the item it supplanted.

Wednesday evening's heavy fog which blanketed the outlying distriets, postponed many a trip, Pa Newc is informed. The fog in some sections was one of the densest that has ever been experienced in the county. Winds which formed around 10 o'clock tended to move the fog on, thus removing a potential traffic menace.

Tokodynamometer Aids Child Birth

BALTIMORE, Md. - (INS) Important new studies in the field of child birth have given doctors new knowledge of how to deliver babies more safely and with less pain to the mother, according to Dr. S. R. M. Reynolds, of Johns-Hopkins hospital.

The Tokodynamometer, a new research tool developed by Johns-Hopkins in co-operation with the Minneapolis-Honeywell Regulator Company, makes it possible to measure accurately the frequency and duration of labor pains.

This knowledge, Dr. Reynolds points out, will reduce infant mortality, help the attending physician to predict whether a normal or abnormal delivery can be expected, and when surgery is required, giving necessary advance warning.

Studies have already resulted in discovery that birth takes place with less pain and greater safety if the mother is relaxed rather than stimulated during delivery. pected as one cause of abnormal and harmful delivery.

HERE IT IS! We are now using the New KLEENTEST SYSTEM of dry cleaning and texturizing, developed by the Kleentest

Laboratories. No more guess work. Every garment is weighed, cleaned and lanolized with the Kleentest activating machine. The lanolizing process is now being used by many of the leading cleaners over the country. It brings back luster and sheen, and puts new life and body into the fabric. It is a stain resistant and moisture repellent. With this new system garments stay cleaned and pressed much longer than ever before. It's also the ideal service for draperies and household hangings.

WHO IS WELL ADJUSTED?

A magazine has asked various prominent people to define change has had the following sethe "best-adjusted" person. The term does need clarification. quence:

Various definitions offered by psychological and psychi- in Prague last fall, a resolution atric experts are in a jargon that may lend precision for those familiar with specialists' terminology, but to laymen they lack of preventing any rearmament of Paris. clarity. Popularized definitions are likely to carry the connotation that to be well adjusted is necessarily to be a fatalist, a conformer or a Milquetoast.

To be well adjusted is to be in good mental health. But the mark of good mental health is not placidity or resignation. It is something positive. The well-adjusted person is not a bellyacher. To that extent he accepts things as they are.

But he is not so blind or indifferent that he cannot see reply to the Soviet note and de-make public the appropriate reply. him. He simply reacts to it in a more positive and healthy way the possibility of a preliminary conference to frame a big four than the badly adjusted person.

If he thinks something is wrong, he corrects it if he can -and if it is not too trivial to bother with. If it cannot be corrected immediately, he does what he considers worth doing on a long-range basis. If it is something he cannot do anything about, he makes the best of things as they are. He doesn't let plans in exchange for a presumed developments convert him into a sourpuss.

He generally likes people. He can see their faults, and likes them anyway. In the case of people he does not like instinctively, he makes allowances. He realizes those people may have greater problems than he is aware of.

But it makes little sense to talk about the well-adjusted person in a vacuum. Too much depends on what it is necessary to adjust to. To be well adjusted in a Communist prison camp would call for reactions that might resemble symptoms YOUNG CHILDREN CAN CAUSE of madness in a normal environment. A well-adjusted person under extreme strain might act like a neurotic who is under no great outer pressure.

A definition of the well-adjusted person, it seems, depends on who makes it.

FELL INTO TRAP?

Many Allied military leaders were fearful of trouble with Russia as long ago as World War II, when the Russians refused to permit American military observers to go to the Russian front and interned U. TRADE WITH REDS

If the United States does ask-belatedly-for the imposition of economic sanctions against Communist China, the United Nations ought to approve it with the same alacrity that it approved the sending of United States forces to Korea.

General MacArthur's headquarters announces that Red China has more than a million men under arms in and about Korea, and by the end of next year will be able to put 12,000,-000 men in the field. None of the other members of the United Nations are sending aid. To win this war, therefore, the shrill loud voice, soon abandon United States must rely on the continued superiority of American equipment, including planes, and on a boycott to keep materiel from reaching the enemy.

The Communists do not need manpower. Nor do they care what happens to it in battle. But they cannot fight without tanks, planes, guns and ammunition. Washington will be negligent if it continues to fail to do what it can to deprive good deeds, celebrate his suc them of the means of getting the sinews of war.

Friends In Europe

(By HOLMES ALEXANDER)

WASHINGTON, D. C., Jan. 4.—Poor people living on rich people's money may be well-fed, well-clothed and well-housed, but it's doubtful whether they are steaming with love, trust and allegiance as respects

their benefactors I do not offer this philosophic theme as an original discovery. In fact I distilled it from an 111-page public relations survey which the well-known firm of J. Walter Thompson made for the Economic Cooperation Administration, better known as the Marshall plan.

The survey, which is non-secret but hasn't been published in full came into my hands when I asked an ECA official if he had any factual data to throw light on the Capitol Hill debate: "Have we made any friends in Europe?" The gist of the Thompson report, which was completed last September, seems to be:

Do Not Trust Motives

1. Many Europeans, while taking our money and making good use of it, do not trust our "motives."

2. France, most benefited country in continental Europe, is the problem child" of the family in the matter of distrust.

3. Economic uplift has not brought Democratic unity to Europe Marshall planners, it's fair to say, regard the Thompson report as a challenge rather than a document of failure. They feel that a great deal of progress has been made since the compilation of the report and because of it. But time is running out on us. Here we are on the brink of World War III, and here is a research work which shows us some hard truths. Discussion of them, I'm sorry to say, will give some pleasure to the Russians, but so does the publication of our Korean casualty lists. We are a weak people if we can't take bad news, and a stupid people if we can't benefit from a facing of facts,

Little Has Been Obtained

The salient fact of the report is that billions of dollars have not obtained for us the one thing we need most from West Europe-the people's overwhelming belief in our good intentions.

The report opens with the observation that—as of the summer of 1950—a blockade of "suspicion, distrust and skepticism" still handicaps "eventual success of the Marshall plan." This does not imply that none of the countries has responded well. Some of the small ones have It does not mean that West Europe is definitely against the principle of American aid. Only 10 per cent of the population will go so far as to say that. But the self-help and mutual benefit aspects of the Marshall plan appear to have created large groups of doubters, not counting those who say they "never heard" of the plan. On the basis of this survey 30 per cent of the Danes, 46 per cent of the French and 55 per cent of the Austrians (not counting Vienna) say they "don't know" or that they're "doubtful" about the benefits of ECA.

Disturbing Figures

These are disturbing figures to come out of a region where our most popular and best-backed foreign policy has been in operation for two years. The news gets worse as we break it down. European industry is what we need in World War III. But the report says: "Labor remains the most critical group in all countries." We hoped that our aid would reach down and bring relief to the suffering masses of Europe. But the report says: "The greatest outright opposition to the Marshall plan is among non-farm workers, among the poor and among the ignorant." In Denmark 37 per cent of the workers are "against the plan, and in western Austria 60 per cent of the workers are "against" it. In France the total of workers who are "doubtful" or think the plan "bad" is 84 per cent.

France Most Distrustful

France, key nation of the anti-Communist bloc, is most distrustful. special poll indicates some of the reasons. If this survey is correct, only 18 per cent of all Frenchmen believe that the purpose of the Marshall plan is "to help." Thirty-five per cent feel that the U. S. wants to "get rid of its surplus"; another 35 per cent believe that we are drumming up recruits to fight a war, and a total of 22 per cent believe that we either want to take over European markets or to "dominate" in some other fashion. These percentages exceed 100 per cent because more than one reason was given.

Probably the most discouraging figure of all is the 52 per cent of Frenchmen who accept the fact that the Marshall plan was founded to keep Communism out of West Europe. Considering that this is our prime motive and that we've been saying so as loud as we can, that vote of confidence is a little skimpy.

So is the hope that our aid has won us firm friends and steadfast allies. This does not mean that we should quit trying in Europe. It may mean that we should try harder. Or it may mean that we should

try another method—if we still have time.

WORLD'S FIRST PHOTO PRINTED BY ATOMIC RAYS

WHAT IS PROBABLY the world's first photo "printed" by atomic ray bombardment (right) shows the Westinghouse atom smasher in Pittsburgh. Scientist who successfully made the photo is Dr. Kuan-Han Sun, shown (left) placing a sheet of film between blocks of paraffin wax near target end of cyclotron at University of Pittsburgh. When neutrons from the cyclotron bombard the encased film, they make it radioactive, and when the film is placed in contact with a sheet of sensitive photographic paper it produces a "carbon copy" of the original. Dr. Sun, Chinese-born nuclear physicist, believes the process might become useful in recording secret documents for intelligence work or business. (International)

HARRISBURG, Jan. 4.—(INS)— Grover C. Ladner and T. McKeen Chidsey were recommissioned to-day on the State Supreme Court by Gov. James H. Duff as a pre-caution in the legal fight initiated by a Lackawanna county Demo-cratic judge for one of the posts.

Both were appointed to the appellate bench July 5, 1950 to serve until January 1 of this year. Duff's action extends their appointments to next January 1. These new commissions were

issued as a matter of technicalityas an abundance of precaution," said Duff. This merely reaffirms

the original appointments."

The legal squabble arose after Judge Michael J. Eagen, of Jermyn, defeated by Republican John C. Bell, Jr., for a supreme court post in last November's election, contended he should be named to the Ladner-held post in line with a section of the state's constitution governing appointments when two or more vacancies exist on the

Eagen has entered a complaint with the high court and it is scheduled to be aired Friday

Ladner was appointed to succeed George W. Maxey while Ladner, a Democrat, was chosen to succeed the late William B. Linn. The deaths occurred, election officials contend, after the legal deadline for certifying the posts for the November ballot.

Gets Down To Earth Truman Differs

With Sen. Taft Over Message

WASHINGTON, Jan. 4. - (INS) - President Truman vehemently differed today with Sen. Taft (R) Ohio, who charged the President with delaying the work of Congress by holding up his State of he Union message.
The President told his news con-

ference that Taft simply did not know what he was talking about. He said there has been no delay in delivery of his State of the Union message, which will go up Monday

The President pointed out that Congress did not convene until yesterday-the middle of the week and that in the normal procedure he will address Congress Monday, with a week end having intervened

Mr. Truman said that Taft might also realize that Congress is not yet organized and ready to get its work under way.

The President also said he found no fault with Senate Democrats' choice of Sen. McFarland of Arizona as majority leader and Sen. Johnson, of Texas, as majority

He said he knows both senators well, and likes them.

Some News Notes And Comment

For a time Wednesday during council session it appeared as though the budget, or appropriation measure, was in jeopardy. It did not contain an amount for the purchase of a motor vehicle for streets commissioner Joseph O'-Councilman E. Gene Schweinsberg called colleagues attention to the missing amount. Finance minister Albert A. Hoyland said that so far as he was concerned he was under the impression the committee compiling the budget had agreed to eliminate Finally a smile was brought to Mr. Schweinsberg's face when Mr. Hoyland said that after three months of this year a way would be found whereby a motor car could be bought.

Greater New Castle association has given to the city of New Castle a warranty deed for a plot of ground which has been named Industrial street.

Here are the amounts listed for the year for office equipment (articles costing less than \$300), and also accounts listed as "other expenses" for the various city bureaus: Mayor, \$50 and \$100; finance and accounts, \$50 and \$100; public safety, \$25 and \$100; streets and public improvements, \$100 and \$100; civil service, \$60; city clerk, \$125 and \$80; city controller, \$100 and \$100; tax assessment, \$100 and \$600; city treasury, \$280 and \$100: license tax collector. \$100; legal bureau, \$25 and \$100; public building, \$50 and \$200; municipal garage, \$100 and \$25; bureau of electricity, \$50 expense; city planning and zoning, \$4,000; police, other expense, \$50; fire, equipment, \$50; sealer of weights, \$175 (coal dealers plates); health, no equipment or other expense; sanitary sewers, \$50; sewage bureau, none; ash and rubbish collection and disposal, other expense, \$50; engineering, equipment \$800, other expense \$100; streets and sewers, other expenses (rental) \$310; street cleaning, other expense, \$700.

It costs Mr. and Mrs. Taxpayer \$175,860 to pay for police protection wages and \$163,764 for firemen's salaries during the current year. Of course, this includes the \$20 raise, or \$240 a year, which after Uncle Sam takes his bite, doesn't leave the cop or laddercrawler \$240.

HOLLYWOOD, Jan. 4.—Terry honey, you should have listened Moore thinks that it is high time that people stopped throwing bricks at mothers of movie stars.

The teen-age actress, currently playing opposite Jerome Court-land in "Sunny Side of the Street", claims the average person's con-ception of a movie mother is to make her out to be some kind of a 10 per cent Tessie who runs around all day taking a poll on ner daughter's chances for an Oscar. Terry declares:

"A composite caricature of the mother based on those stories would have you believe she is a shrew with a pointed head shaped like a dollar sign housing a perpetually clacking tongue, who causes talent scouts. agents and director to run for storm cellars to batten down the Mother Becomes Target

Terry says that all mothers become the target for an avalanche of unfavorable comments as soon as her offspring gets started on movie stardom.

Terry points to her own mom.
"Actually," she says, "my mother doesn't go near the sets where I work. She thinks it might make me self-conscious. Naturally, she has a hand in my career. We talk things over and she submits her opinion on many of the problems a girl faces in this business."

The actress' mother has yet to tell Terry "mother knows best,

New Pension Plan For City ls Discussed

a Municipal Employes Retirement system may be favored by the city of New Castle, according to a discussion during council meeting street held in city hall, Wednesday.

The discussion occurred after assistant to City Solicitor Robert White had opined that, any pension system launched here, which does not include both officials and employes, would violate state law. Mr. White said that he understood that Governor James Duff had named a board by authority of Municipal Employes Retirement

One of the requisites is that, at least 250 employes, join the

According to the bill, municipal employes would be required to join, if a city entered the system. Joining would be optional for elected officials, and per diem em-

Mr. White suggested to council that the board having been appointed by Governor Duff, it might be a good move by the city to have the chairman, or one of the members come here and explain fully how the system will operate, following which the city could de- street. cide whether or not to join it.

The local Employes Retirement system ordinance was ruled out by Lawrence county court only recently, and approximately \$59,-000, must be dissolved. The money the city contributed as its share must be returned to the city, and Leasure avenue. the money paid by employes and officials, must be returned to them without interest. Pensions paid to three employes must be refunded by the pensioneers.

However, anyone in the system has six months time in which he or she may ask the court for sanction to appeal the court's decree.

WASHINGTON, Jan. 4 .- (INS) -Defense Secretary Marshall declared today that the situation in Korea is developing "almost exactly as anticipated."

Marshall made a surprise appearance at the regular war news briefing at the Pentagon to assure reporters that United Nations forces are being deployed in accordance with further anticipation concerning the Chinese Red of-

Pentagon sources said this does not necessarily mean that UN forces will get out of Korea.

The secretary said the Chinese Communists have "much more artillery in this offensive than they had in the first slug"—a reference to the Red drive from the Manchurian border starting November 27, which he said was carried out largely by foot sold-

Even with the increase in ar tillery, he said, the Communists still have "comparatively little artillery, and little or no air." He said the principal problem is the enemy's overwhelming numbers. Marshall paid high tribute to the fighting calibre of British, Turkish and Puerto Rican soldiers in Ko-rea. He said:

"I realize the natural interest in this country is in our young American troops in Korea, but it is very important to realize also the splendid fighting capabilities of other United Nations forces.

'I have in mind the British brigade, the Puerto Rican group in our own 2nd Division, the very heroic performance of the Turk-

To Name Corn Goal Of 1951

Brannan Soon To Set Production Needs Of This Year

WASHINGTON, Jan. 4.—(INS) -Agriculture Secretary Brannan will soon announce the nation's corn production goal for 1951. Brannan will announce, possibly this week, what the nation's corn needs are expected to be and will set acreage allotments according-

Current reports have it that the secretary will declare this year's output entirely free of acreage restrictions to encourage production of enough corn to supply the heavy feed demand for meat during the emergency.

If he says that corn will be

grown without acreage allotments, officials say that price supports will still be in effect for corn producers. But they will not be based on compliance with production controls.

Over 83 Million Acres Last year's harvested acreage amounted to more than 83 million acres. It was the lowest in almost 50 years and reflected the effect of acreage restrictions. The crop was estimated at three billion, 131 million bushels.

Meanwhile, the Commodity Credit Corporation has taken steps to assure the nation adequate supplies of corn as a defense precau-

A delicious dinner was served with Mr. Root for the hayride and the Mrs. Martha Brown in charge of Lions club for the Christmas the necessary arrangements. Fol- party. lowing the dinner a business meeting was held with Rev. Whitacre presiding at the first part and Paul Shields at the other. Mrs. Cover and Mrs. Paul Shields were reelected as organist and assistant while Paul Shields was reelected as chorister. The present ushers were reelected with Donald Shields as head usher. Laban Monn was elected as trustee and Wylie Wallace as auditor. A motion was made to extend a vote of thanks to those who presented gifts to the church during the sesqui-centennial. Mrs. Nesbitt responded by saying that the only thanks they wanted was for more people to attend church to worship with the aid of their gift.

TURBULENT THIRTEEN CLUB Mrs. Paul Shields entertained the Turbulent Thirteen club in her home on Thursday evening. Prizes for bridge were awarded to Mrs. Glenn Eppinger and Mrs. Roy Crawford. This was the Christmas party and gifts were exchanged Tasty refreshments were served desired to be baptized, and infrom prettily appointed tables. FORCED AIR VENTILATION IS BEST FOR DAIRY COWS Dairy cows for best performance, need proper ventilation in the stable. The most satisfactory way of ventilating a dairy barn during the entire stabling season is the forced air system. This method used an exhaust type fah powered by an electric motor and controlled by a thermostat.

The propeller type fan has proved to be the best. Whether it has

two, three, or more blades, depends on the manufacturers and is relatively unimportant in fan selection. The fan may be connected directly to the motor shaft or may be offset and driven by a V-belt. The blades of the fan should be made of a corrosion-resistant material which can be easily cleaned when necessary. The electric motor should be totally enclosed to prevent fires. It should also be provided with overload and low voltage protective cut-out switches.

The fan size should be based on the average animal weight. The fan should be able to deliver 200 cubic feet of air per minute for each 1,000 pounds of animal weight at 1/8-inch static pressure

side to prevent back drafts into ning. The other side should be protected with a wire grill to prevent animals and children from possibly injury, and to prevent damage to the fan.

Fans are best controlled with a corrosion-resistant ther-Contacts should be enclosed and of the type actuated by air temperature.

CARROTS HAVE FOOD VALUE As long as carrots remain edible, there is no loss of carotene. Carotene is converted into vitamin A by the body.

DAIRY COWS NEED PLENTY
OF WATER
Reduced milk production quick-

ly shows up during cold, stormy weather when there is not plenty of water for cows to drink any time they wish.

Water is one of the most important essentials for efficient milk production. Good feeds, such as high quality hay, good sil-

age and a balanced grain mixture on Thursdays and Fridays, those are important too, but don't omit for June and July on Tuesdays

Drinking cups are the method for watering when cows are in stanchions or with chain ties. The installation of drinking cups is a most profitable investment as they soon pay for themselves and then earn a profit from then on. Where cows run loose in shed, running water at a trough allows cows to obtain water any

time they wish. Where cows must obtain water at a trough outside the barn there is a question of whether they can obtain enough for best production. If cows are watered after feeding in the morning and after feeding at night they will drink more water than if they are watered before chore time in the evening.

The result is more milk. Another suggestion for troughs outside is to have some kind of tank heater. By removing the chill from water, cows will increase their consumption materially with the end result of more milk from the same feed.

FIELD DAYS REPLACE FARM AND HOME WEEK Instead of another farm and home week, four double field days, most of which may be of interest to Lawrence county farmers, have been scheduled for this coming

summer at Pennsylvania State col-

The series of days will be May 24 and 25, June 19 and 20, July 10 and 11 and August 9 and 10. Two days will be devoted to each occasion rather than one, to per-(water gauge).

be available. Each occasion will emphasize a different theme. The two days in May will be devoted to high school students; June, to persons interested in dairying and live-stock; July, field crops, fruit, vegetables and foundation seed stocks; August, weed control, poultry and hybrid corn. Visitors in August also will see college flower gardens in full bloom. Emphasis on grassland farming also will

"I Like Substantial Savings

That's Why I Shop at A&P Where

ch we well on My Total Food Bill,

Rather Than on Just A Few 'Specials'!"

"Of course no savings are to be sneezed at these days. But I found that those I made on a few 'specials' once in awhile just didn't cut my total food bill enough to be worth all the time and energy it took to track them down. I discovered that I could save a lot more . . . a lot easier . . . by doing all my marketing at my A&P, where hundreds of items all over the store are priced low every day in the week and advertised prices are guaranteed for a full week, even though wholesale prices go up. Believe me, the savings I make that way are really substantial. Why don't you try it, too?"

Prices shown here guaranteed Thurs., Jan. 4, through Wed., Jan. 10.

A&P's "Super-Right" Meats

Because "Super-Right" meats are so tender, juicy and delicious, they're preferred by thousands. And because of their tremendous popularity, A&P can afford to sell them at low prices.

Charge Some Accepted Gifts And Loans From **Operators Of Schools**

WASHINGTON, Jan. 4 .- (INS) -A house committee charged today that some Veterans Administration officials accepted gifts and loans from operators of training schools for veterans.

The committee noted, however, that the VA has not yet had a chance to answer the charges. The group, headed by Rep. Teague (D) Texas, recommended new laws to curb "certain irregu-

larities" by VA personnel. In its final report for the 81st congress, the committee pointedly

mentioned: The acceptance of gifts and loans by VA personnel from training school owners and opera-

The fact that some VA officials owned an interest in training schools, and at least in one instance, actually managed the affairs of such a school while still functioning in their VA positions.

Instances Cited The report listed these specific instances of "irregular practices"

by VA personnel: A chief of training received \$1,000 and a 1946 Buick from a school operator.

2. One employe received five loans from school operators. He had paid back some of the loans but one \$1,200 loan was not se-

cured by a note.
3. Another received two \$4,000 loans from the owners of a 17school chain, while still another received two \$1,000 loans and another received a total of \$1,200 in loans from school operators.

4. Two VA officials owned a one-third interest in a trade school To Elect Officers and negotiated the affairs of the

5. One VA employe surveyed school, recommended approval of it, then resigned to operate the

6. Some 56 schools in Texas were owned or operated by former VA employes.

Dairy farming will lead to oldage and survivors insurance pro-tection for the largest number of tection for the largest number of farm people in this area, Mr. Milbouer believes, with poultry and fruit farming next. He emphasizes that it is the regular farm worker who is paid cash wages who will come under the law-not the itinerant, seasonal, or part-time

plains how the farm operator can are covered by the law. Issued by the Bureau of Internal Revenue, the leatlet is available from the Collector of Internal Revenue, the Social Security Administration at New Castle, or from offices of county agents or Production Maralso have copies of the notice.

In addition to explaining just what farm workers are covered, the leaflet contains a tear-off slip. Form SS-4a, which the farm operator should complete and mail if he has employees who will be covered the law. Further information about making the quarterly tax reports, and copies of the report-ing blanks, will be sent to farmers who mail this form to the Collector of Internal Revenue.

Although the new law brings farm work under the social security system for the first time, the system will not be new to thousands of the farm workers. Many of them made a substantial start toward old-age and survivors insurance payments by working in commercial or industrial jobs at some time since 1936. Some of them worked in war plants, and estate. others are veterans of World War II, who will receive social security credits for their military serv-

ers who do not have a social security account number card should status of 19 high police officers who testified before the senate secure one within the next few weeks. The account number is necessary in order to insure proper social security credit for the worker's wages. Applications for the account number card are in every post office. The card is issued at no cost to the worker.

'Not all farm workers are covered by the law," Mr. Milbouer emphasizes. The farm operator himself does not receive the protection of old-age and survivors insurance, nor do farm workers who work less than five months for one

ONLY A COUPLE OF BROKEN LEGS

ENSIGN JOHN F. TAYLOR, U. S. Naval Reserve, is lucky to be out of this with just two broken legs. His Corsair fighter lies in pieces on a bunker full of demolition explosives at Alameda, Cal., Naval Air station. Practicing "touch and go" landings, his left wingtip touched the ground and the plane cartwheeled. Crash crews got there in time to keep fire from touching off the ammo. (International Soundphoto)

TORPEDO PLAN WINS NAVY INVITATION FOR YOUTH

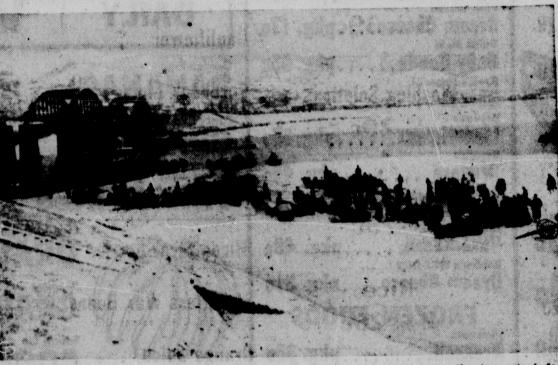

THESE FACES ARE TYPICAL IN 'DARK AFRICA'

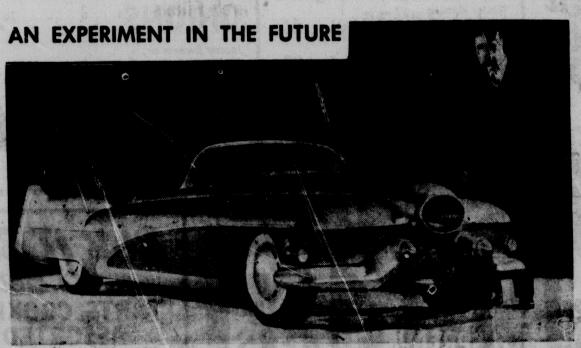

A Ubangi man puffs a pipe

THESE FACES OF AFRICA were brought back from French Equatorial Africa by Hector R. Acebes, explorer, photographer and student of African culture who spent six months in the Lake Chad area. The smiling girl of Gao is a member of the Conobo tribe and wears her nose ring set off to one side. A curtain of beads is an original adornment for natives of Fort Auchanbault. The girl is toting a wicker basket to market. The nonchalant Ubangi uses one thumb to hold his platter lip up to view. These people are living as primitively (and happily) as their ancestors did centuries ago.

A LOW, SLEEK SPORTS MODEL with sweeping lines of a jet aircraft-an experiment in the automotive fi ture—is unveiled by the styling section of General Motors of Detroit. In development four years, "Le Subre" will be a laboratory on wheels for testing mechanical and styling ideas. Some of its design or mechanical features may appear some day in standard cars. "Le Sabre" will be powered by a custom V-8 engine. Its total weight will be around 3,000 pounds, the body 36% inches high at the cowl. The wheelbase is 115 inches, overall 200 inches, width 35% inches. Above is plastic model. (International)

BEST AT THE BOXOFFICE IN 1950

TOP DRAWING CARD for 1950 at the nation's movie boxoffices is John Wayne, one-time Southern California football player who has been in films since 1931. Only two women are in the first 10 (above). Bob Hope, first a year ago, is second. Bing Crosby, tops for five years till he lost to Hope in 1949, drops to third for 1950. (International)

GRANDMA HAS SEVENTEENTH BABY

GRANDMA WINSLOW, 40, of Syracuse, N. Y., was in the hospital having her 17th baby when this picture was taken. The son was born in Syracuse General hospital during Mrs. Winslow's 16th visit. Once she brought home twin boys. The Winslows have eight sons and nine daughters. Their three oldest daughters are married and have a boy and girl each. Visiting Robert W. Winslow (right), the father, Syracuse's Mayor Thomas Corcoran (left) says, "You make me feel like a piker." The mayor has 11 children. The Winslow youngsters are (from left) Barbara, 16; Diane, 3; Harold, 2; Betty, 12. (international)

IN WASHINGTON, Lt. Rosemary Lafferty of Utica, N. Y., holds two types of radiation "dog tags" de-veloped for the protection of Navy

personnel. The one at the left is composed of silver-activated phosphate glass as the sensitive element. Gamma rays convert the glass into a phosphor. The other uses salt

crystals, normally transparent, which turn blue when exposed to samma rays. (International)

Titans Seeking

Meet Arizona State Saturday At Farrell

Seventh Victory

Westminster college's once-de feated Titans will seek their seventh victory of the season tonight when they meet the University of Pittsburgh Panthers at Pittsburgh Tonight's game will mark the Panthers' opening home contest of the season. The Panthers completed a 6,000 mile western trip during the holidays which netted them eight straight losses. One other loss and an early season victory gives Pitt a 1-9 record in games to date.

Arizona State Saturday For Westminster tonight's game will be the second of three to be played this week. The Titans started the new year off with a 75-63 victory over St. Joseph's Monday at Philadelphia. Saturday night at Farrell the Blue and White meet

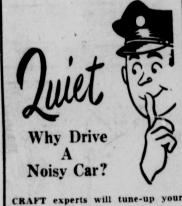

Arizona State. Despite their poor record to date, Coach Carlson's Jungle Cats are expected to follow tradition and offer stiff competition tonight to their district foe. Since 1922 when the Pitt-Westminster series first began, "estminster has won 13 victories and lost 12. Last year the Titans took both ends of a two game series, defeating the Panthers 49-38 and 85-55.

Westminster has averaged 72 points a game in play thus far this season with five high scoring Titans leading the scoring parade. Pat King has an average of better than 15 points a game followed closely by Ed Halas with 13 points, Don Meyers and Johnny Abraham with 12 points and Jerry Sybert with an 11 point average.

Louis TKO Winner In Fourth, Seeks Comeback Referee Stops Bloody Battle

DETROIT, Jan. 4.—Joe Louis is in the best physical condition in five years and may yet disprove the adage "they never come back". The former heavyweight champion won a fourth round technical knockout over Freddy Beshore of

Harrisburg, Pa., in Detroit's Olym-pia stadium last night. Louis "I think I could have beaten (Ezzard) Charles if he had been in

the ring. Crowd of 13,096

Most of the 13,096 fans who paid \$41,425 to witness the scheduled 10-round fight agreed with Joe. He looked almost like the Brown Bomber of old. He was down to 2101/4 pounds and came out of his corner punching.

Beshore fouled Louis three times in the opening round and was warned by referee Johnny Weber, Louis ignored the low blows and beat the face of his opponent into a bloody pulp.
The 191½-pound Beshore, who

lasted 14 rounds with Charles, had a broken nose at the finish and needed six stitches to close a gash above his left eye. The end came at 2:48 of the fourth round. No Knockdowns

There were no knockdowns but Louis was satisfied with his performance. He had trimmed down to his lowest weight since he last fought Billy Conn. Joe said: "I'm in better shape now than

ready by spring." Louis' next fight is tentatively set for Feb. 7 in Miami, Fla. Tommy Gomez or John Holman may be

the opposition. A bout with Rex Lane also is said to be in the making before Joe challenges Charles to a return

Beshore said he didn't know how Charles ever beat Louis. Beshore continued: Gory Finish

"I've been in the ring with both of them and I think Louis is the better fighter. Joe would have knocked Charles out tonight."

Louis was Beshore's master from the opening bell. He jarred his foe in the second round with his right hand that was so useless against Charles and Cesar Brion. Joe rocked Beshore again and again in the third round.

Beshore was bleeding from his nose and eye when the bout was

AS WE LOOK into the coming year with its uncertainty, it is only with tongues in cheeks that we may expect it to be a Happy New Year. It is, of course, our greatest desire, that the future twelve months bring a lasting peace and happiness to our country, and the world. But, if it is not in the cards for us to enjoy the wonderful life our forefathers planned for us, we must fight for it as they did.

Pennsylvania, with its bountiful supply of natural resources has always contributed its full share to the national program for a free America, and may be counted upon to hold up its end of the job, writes Seth Myers, secretary of the northwest division of the Federation of Sportsmen's clubs.

Should our nation become involved even deeper than it now is, in the world conflict, Pennsylvania's natural resources will be drawn upon heavily. First, comes the immense tonnage of steel necessary for war. To produce steel, it requires an enormous amount of coal This may mean great areas of our land destroyed in the frantic gouging

While we must not stand in the way of the war effort, we will need to be on guard at all times to prevent unnecessary destruction of the rich topsoil which is our very source of life and the natural habitat of all wildlife. When a war is over, we must have these God given things.

War brings with it many new chemical processes for manufacturing war machines and explosives. This is, of course, to be expected and we must stand ready to assist in every way possible, but we must be alert when the war efforts result in dumping the used chemicals into our streams. We need pure water to exist when the war is over, and it would be worthless to win a war, and later, lose out as a people because the water supply had been destroyed.

The forests must not be completely destroyed because of the dire need for wood products. We will need to alert ourselves to the ever greedy war profiteers who would destroy everything in a forest while getting out the trees that are valuable to the war effort.

Boston Braves Lose Young Star To Armed Forces

BOSTON, Jan. 4 .- (INS)-The Boston Braves have lost one of their most outstanding young players to the Navy.

Eddie Matthews, 19, termed by many scouts as the best prospect in the Tribe's chain and the most "natural hitter" since Ted Wil-liams, notified General Manager Open golf crown away from him in tomorrow's opening round of Santa Barbara, Calif., he had Santa Barbara, Calif., he for four

Santa Barbara, Calif., he had signed with Uncle Sam for four years.

Lions share of the \$15,000 swag, donated by the sponsoring Los Angeles Junior Chamber of Commerce, paired with Jimmy Demaret and Dr. Cary Middlecoff.

Santa Barbara, Calif., he had signed with Uncle Sam for four years.

Matthews, a third baseman, was with Atlanta, Southern Association last year, his second year in organized baseball. He clouted 32 home runs and batted in 106 runs

tion last year, his second year in organized baseball. He clouted 32 home runs and batted in 106 runs although hitting only .286. Twenty-four doubles and nine triples were among his extra base hits.

Boxing Commission

Seeks Explanation

PORTLAND, Ore., Jan. 4.—
(INS)—The Portland Boxing Commission seeks an official explanation today of why Dusky Billy Smith, 173-pound fighter from Oakland, Cal., walked out of the ring in the eighth round of a fight Tuesday night.

After pondering his aciton for a night and a day, Smith told newsmen it was because he had no battle strategy.

Smith, whose purse of about \$1000 has been withheld, had been \$10000 has been withheld \$100000 has been withheld \$10000 has been

Smith, whose purse of about \$1000 has been withheld, had been knocked down by Archie Moore, 182, of Toledo, O., before he climbed through the ropes, brushed aside the referee's restraining hand and strode to his dressing room. The fight had been scheduled for 10 rounds.

Western Union 405% Young S & T 5334 FIRE SAVINGS CHICAGO - (INS) - Reorganization of the fire department in Providence, R. I., has cut the number of fire stations from 29 to 17 and the number of fire companies from 37 to 30 without reducing the efficiency of the department. According to the American Public Works Association, the reorganization, which was initiated during the war as an economy measure, is now 90 per cent complete. Savings in men and equipment are estimated at \$200,000 annually.

May Be Extended WASHINGTON, Jan. 4 .- (INS) Rep. Vinson (D) Ga., said today the Defense Department will ask

Congress to extend from 21 to 27 months the period of compulsory military service. The chairman of the House armed services committee told newsmen "that's pretty well set-tled as far as the department is

concerned.' He added that the department will submit within the next few days its recommendations for revision of the draft law and announced that his committee will

begin hearings January 18.
Vinson added that the Defense Department may also recommend; 1. That the draft age be changed from 19 through 25 to include 18year-olds and men above 25.

2. That the draft be applied to single men and married men without children in all age grou 'No Veterans To Be Drafted' The congressman declared flatly that "no veterans will be drafted." He asserted: "We told the department that we will not consider

the drafting of veterans."

Vinson disclosed that selective service and his committee will make "a complete restudy of men already passed over (deferred) for

physcal, mental and educational reasons. An investigation of reserve components also will get underway Monday before a subcommittee headed by Rep. Brooks (D) La. Vinson said the purpose of the probe, among other things, was to determine "who can go (into serv-

ice) who can't go and who will undergo the most hardships by being called up." **Navy Reports** 17 Enlistees
